Apples

On average, **240 MILLION** bushels of apples are harvested across the U.S. per year.

5 of the Most Popular Varieties of Apples:

1. Red Delicious
2. Gala
3. Granny Smith
4. Fuji
5. Golden Delicious

The U.S. is home to approximately **322,000 acres** of apple orchards.

2,500

varieties of apples are grown in the United States.

36

apples make **1 gallon** of cider.

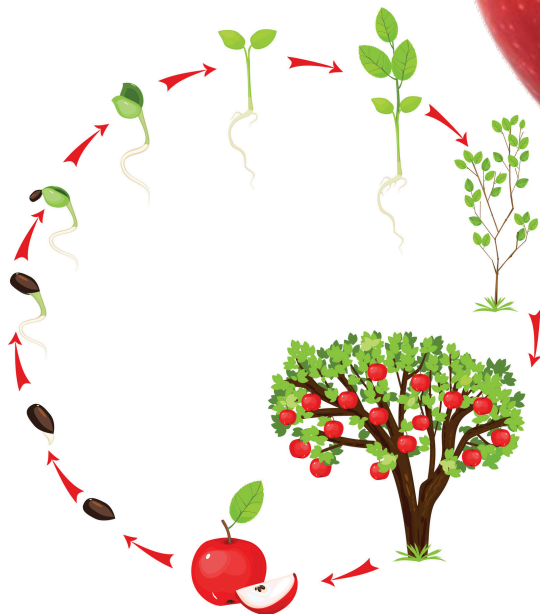

21% of apples are juiced.

An **apple blossom** is the flower that comes from an apple tree.

An apple tree takes at least **4 years** to start producing fruit.

Most apples are **HAND-PICKED.**

Vermont

Maple Syrup

Vermont produces **over 50%** of the United States maple syrup.

Maple Sap Producing Trees:

1. Sugar Maple
2. Red Maple
3. Black Maple

Vermont is home to **3,000+** sugarhouses - where maple sap is taken to boil down into maple syrup.

40 gallons of maple sap = **1 gallon** of maple syrup.

A well cared for maple tree can live for up to **300 years!**

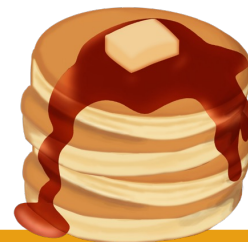

“Liquid Gold”

A single tree can produce up to **15 gallons** of sap per year.

3 types of maple syrup: **Golden, Amber & Dark.**

Amber maple syrup is the most common at the breakfast table.

Maple sap is collected during **late winter & early spring.**
